1. Call to Order

The Chairman, Mr. Richard A. Alcantara, called the meeting to order at 2:05 PM and confirmed that a quorum was present with all six (6) members of the Board of Directors in attendance, satisfying the

requirement under Section 52 of the Revised Corporation Code of the Philippines (RA 11232).

2. Approval of Agenda

The agenda as circulated on April 10, 2025 was presented. Upon motion duly made by Ms. Elena Montoya and seconded by Mr. David Lim, the agenda was unanimously approved without amendment.

3. CFO Presentation -- Philippine Market Feasibility Study

Mr. David C. Lim presented the results of the six-month Philippine Market Feasibility Study commissioned in October 2024. Key findings presented:

a. Market Opportunity: The Philippine digital infrastructure market is projected to grow at a CAGR of 18.4% through 2028, reaching USD 4.2 billion. Demand is driven by IATF digitalization mandates, DICT national broadband expansion, and rapid adoption of cloud services in BFSI and BPO sectors.

b. Competitive Landscape: Three incumbent players (Converge ICT, Globe Telecom Infra, and PLDT Enterprise) hold approximately 71% market share. A regulatory opening under the PSA's Open Access Data Transmission Act presents a credible entry point.

c. Financial Projections: Initial investment of USD 12.5 million for Year 1 (entity setup, DICT registration, leased data center co-location in Clark Freeport Zone). Projected break-even at Month 22, with cumulative 5-year NPV of USD 28.7 million at a 10% hurdle rate.

d. Risk Factors: Foreign equity restrictions (40% cap under the Foreign Investment Negative List) require a Philippine joint-venture partner or nominee structure. Exchange-rate volatility (PHP/USD) and political risk index rated Medium by the Economist Intelligence Unit.

4. Legal & Regulatory Discussion

Atty. Grace D. Reyes briefed the Board on the legal framework governing the proposed expansion:

a. Foreign Investment Act (RA 7042 as amended by RA 8179 and RA 11647): Foreign equity in certain sectors remains restricted. A Domestic Market Enterprise with 60% Filipino equity is the recommended structure.

b. SEC Registration: The Philippine subsidiary, to be incorporated as NEXBRIDGE DIGITAL SOLUTIONS, INC., must file Articles of Incorporation with the SEC and secure a Certificate of Registration within 60 days of Board approval.

c. PEZA / BOI Incentives: Registration with either PEZA (if operating within an ecozoned facility) or BOI under the Strategic Investment Priority Plan (SIPP) may entitle the company to 4--6 year income tax holiday and duty-free importation of capital equipment.

d. Proposed JV Partner: After due diligence, management recommends Meridian Infrastructure Group, Inc. (MIGI) as the Philippine partner (60% equity), a Makati-based firm with existing DICT and NTC accreditations.
